The ETDFL, Frequency List for TRIO SERIES	page 42 - 120

Introduction:

Congratulations on your purchase of your TRIO Series Electro-Therapy Device (ETD). The following guide provides an introduction to Electrotherapy and recommendations for the use of your device. Also provided is the official ETDFL frequency list, revised for your device, an introduction on parasites and the description of a liver cleanse, that we recommend strongly. We wish you every success with your therapeutic treatments and the positive experience of using your new device!

CAUTION: This machine is an electro-therapy device with a very high frequency output potential. Read this brochure carefully and use your electro-therapy devices exactly as directed!

TRIO Series are designed to be small and compact, for portability and are a great single person use device. The machine is perfect for a single disease frequency treatment, where programs are not required to be changed often.

Should you require a multi functional machine which can program over 250 frequencies over 25 Groups, and have preset frequencies built into the machine then you may have to update to the Professional Series.

Basic Understanding of Electro Therapy:

What is electrotherapy treatment with the ETD for?

- Use electrotherapy to fight certain viruses, bacteria, parasites, etc. The electrotherapy works in a similar way as Homeopathy: using natural principles to heal the body. Everything around us already has an electrical charge and thus a certain electrical frequency - we are always and everywhere exposed to it. If you have a specific virus, it lives in a given frequency field. Let us assume for simplicity it lived only at one single electrical frequency. When you feed the same frequency generated by an ETD to your body (with very particular waves), the virus gets over-stimulated and dies.
- Use electrotherapy to restore vitality and health: The programs are producing a harmonic resonance in the body. Each symptom brings electric dissonance in the organism. With the more general programs such as back pain, detoxification programs for lung, liver, etc., the dissonance in the body will be transformed into harmonic resonance. Such programs are particularly useful for meridian treatments connected with 4 strap-combinations.
- Use electrotherapy for Detoxification. Detoxify Heavy Metals, Chemicals and other unwanted toxins in the organs
- Use electrotherapy for the treatment of all disease conditions.

Technical Description

Frequency range

0:01 kHz - 999.99 kHz (1 MHz)

The Single Treatment Group

- + Each 10 Frequency Slot can be reprogrammed
- The Group consists of 10 treatment frequencies maximum
- Presets can be restored through Factory Reset.

Frequency wave and Sideband

30 MHz Microprocessor CW Locked Frequency with square waveform; lab tested square wave. SINE wave on Beam Ray

Voltage input

16.5v DC / 4500 mA (110 V / 250 V SMPS) All world voltages accepted, external DC switching-mode power supply adapter.

TRIO Feature

Sweep 10 User selected frequencies. 10 minutes per frequency
Pulse Sweep 10 User selected frequencies, (Quick Sweep)
Super Sweep: Sweep all frequencies 1 - 999.99Khz

TRIO Operating Temperature Range

0°- 42° Celcius

SINGLE RCA Output socket

- Single RCA socket allows 1 lead (cable) for 2 straps only

DUAL RCA Output using Splitter

- Comes with RCA Splitter, which allows 2 leads (cables)
- Using Splitter you can attach 4 Straps to 2 leads
- Using Splitter, 2 people can use the machine

How to wear Straps

The best place to carry out several hours of treatment (such as overnight) is the soles of the feet in a way that the stainless steel button touches the bottom of your feet. The soles of the feet have very thick skin and are able to tolerate long periods of electrotherapy.

We recommend using the straps preferably at the soles of the feet in a way that the blue conductive coating touches the undersides of the feet. The stainless steel button must always touch the soles.

Correct Way to wear the Straps

Relocate Straps to the Palms of the hands

Silver Button faces palms of the hands

Or Fit Straps to the soles of your feet (Recommended)

Indicators: Power ON, and Output LED Lights

QUICKSTART: TRIO SERIES

- ▶ Connect Power Adapter to the Power Socket
- ▶ Connect the Power Lead to the Machine
- ▶ ON Light indicates successful connection
- ▶ You can Plug a lead into the RCA Port

- ▶ Press Power button to turn on Machine
- ▶ LCD Display will turn on
- ▶ Machine type and info will display
- ▶ Connect the Splitter Cable (into the "Leads" socket) if using the 4 Straps (2 Leads) Setup

Master Reset:

► If you received the machine from someone with other frequencies installed, you can quickly Reset the device by pressing the Up and down arrow together, while in (i) Idle mode

Master Reset

► Master Reset sets the machine back to factory frequency default: 100Khz, 200Khz, 300Khz, 400Khz, 500Khz, 600Khz, 700Khz, 800Khz, 900Khz, 999.99Khz

Voltage:

▶ The Voltage is preset to 16.5v. This is the default for Rife Digital and cannot be changed. This Voltage level provides the most effective treatment level.

▶ The Variable Voltage/ Sensitivity function is only available on Professional Series

▶ If Using a Dr Rife Healing Mat™, or a Dr Rife Healing Belt™ With the TRIO series, you may need to wear a thin T-shirt under the Mat.

▶ Because the TRIO series are fixed voltage they do not have Sensitivity adjustment. If this becomes an issue regarding your treatments, you may have to upgrade to a Professional Model.

(CW) Carrier Wave MOR Sideband

The documented information we have; shows that the original Beam Ray Clinical instruments worked with (CW) Carrier Wave.

The TRIO models are locked into a simulation mode of the original Rife Beam Ray device at the 3.3 megahertz harmonic carrier frequency with the audio (RF) frequencies combination, which together produce sideband frequencies.

This sideband frequency lines up with the true Rife M.O.R frequency and devitalizes or renders harmless, harmful microorganisms.

The Carrier Wave was the mode used in the Original Rife machine, by Dr Rife to cure his 16 patients of a terminal condition.

Carrier Wave sideband is a "Fixed" feature of TRIO and cannot be altered.

Idle Mode (i)

After the TRIO device is turned on, the machine is presented in (i) Idle mode.

Idle Mode Frequency 0

Idle Mode Frequency 1

On the Right side of the screen you can see the Capital (i) next to the 0 (Zero)

You can use the Up / Down arrows to move through all the 10 prerecorded frequencies, and view those frequencies

Where to move from Idle Mode (i) ?

In Idle mode you can immediately run any of the TRIO (3) sweep modes:

or in (i) Idle mode Press the Up and Down arrows to access any of the programmable User frequency Slots and make changes

SuperSweep (SS)

0-999.99 Super Sweep

Super-sweep is a function on the machine which permits the user to sweep every frequency up to 1 million Hz or (999.99kHz).

Each frequency is played for a millisecond, and the Frequency Waveform produced is a gradual gradient of low end frequencies to high end frequencies.

SuperSweep (SS) Recommendations

As every single available frequency is output to the user, the user can experience a different type of electro therapy healing which may assist in cases where other frequencies are not providing fast results.

Super Sweep is recommended when one cannot find a specific frequency, or a frequency is perceived to be not working as well as expected.

By using the larger range of sweep frequencies you can take note of the bandwidth areas which are producing positive results.

It is recommended run all frequencies on occasion in the Super Sweep mode, as an alternative to the preset frequency treatment modes.

Sweep (S)

Sweep (S) Function Explained

- ▶ Use Sweep to run the 10 recorded ETDFL frequency for 10 minutes each
- ▶ User can alter the 10 preset frequencies with the Program function and sweep them all for a total time of 100 minutes for a complete set.

▶ The Sweep function is the timed playback function found on all the ETD devices. The “SWEEP” mode plays back all recorded frequencies in the machine for 10 minutes per frequency.

▶ A Frequency set will last 100 minutes (1 hour 40 minutes). The Sweep mode will also loop continuously unless ESC (Escape) back to the menu. This permits the user to undertake overnight treatment programs without pause.

Should you wish a shorter treatment time using the SWEEP mode, then opt for the menu program “Pulse-Sweep” as an alternative. The Pulse-Sweep will run through all the internal preset frequencies in around 30 seconds

Sweep traditionally has been proven to be the most effective mode, on the basis that it has been integrated and used in ETD machines for over 8 years. ETDFL Labs research has confirmed that this Original ETD Mode (Sweep) has proven to be effective for all types of conditions.

Pulse Sweep (PS)

Pulse Sweep Frequencies 0-9

Pulse Sweep (PS) Function Explained

- ▶ Use Pulse Sweep to run the 10 recorded ETDFL frequencies. Each frequency is pulsed for approximately 3 seconds each.

▶ The User can alter the 10 preset frequencies with the Program function and Pulse Sweep them all for a total time of 30 Seconds for a complete set.

▶ Pulse Sweep uses a unique processor to “Store” and “Build” the Energy in a momentary Off Position, only to Pulse this Stored Energy back into the body in a quick Sweeping motion; increasing the effectiveness of the Frequency and focusing the Waveform and moving the energy deeper in the body for more efficient healing treatments.

Dr Beck discovered this method by converting one of his original Rife Devices & moving circuit output through a Canon Camera Pulsed Flash, removed from an old camera.

Dr Beck found that treatments were far more effective using the Stored energy Pulsed output, than via the standard fixed output methods. The same Pulsing methods are used in your TRIO Device, using modern microchip technology.

(RUN) Run a single frequency

The RUN function was built into the original Ultimate devices for the specific "Play Back" of a single frequency.

The RUN command could play back a user selected frequency from a list of the 10 frequencies in the machine.

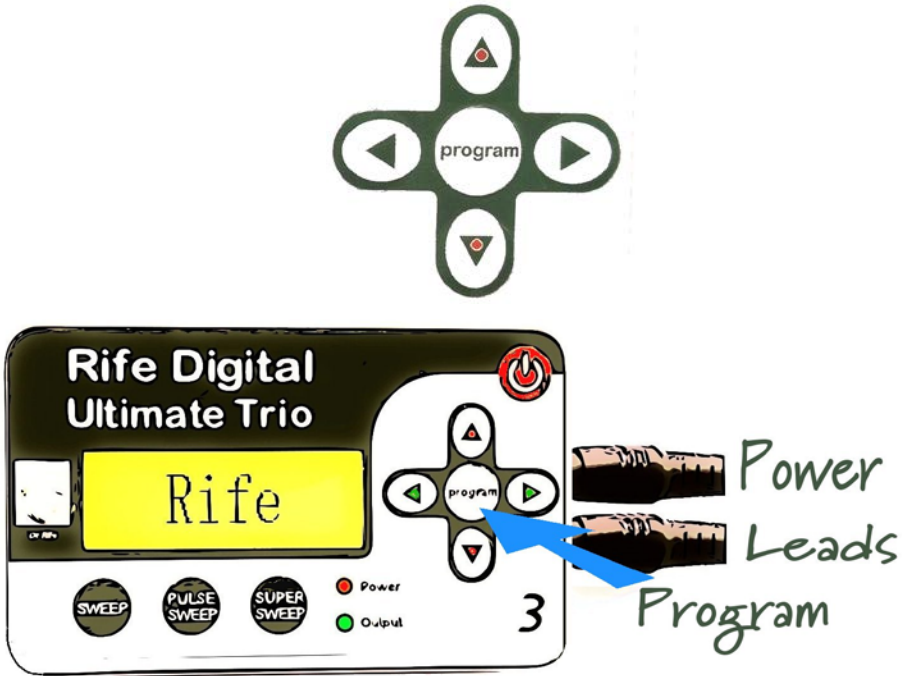

RUN was not added to the new "TRIO Series" as a function button, because ETDFL Bioresonance requires a larger series of frequencies for effective treatments.

Bioresonance requires a "Whole Body" (Holistic Body) method for treatment, and will always transmit frequencies over a variable series of waves, usually around 10 frequencies, sometimes more, but will never use the single frequency approach for treatment.

If for any reason you want to RUN only one frequency continuously, then program the same frequency into the device 10 times, and then use the sweep or pulse-sweep command.

Program (P)

Program mode allows you to program the TRIO device using the navigational Keys:

Use the ETDFL (List) at the back of this book to locate an appropriate frequency. If you need to find a frequency quickly, download the PDF from ETDFL.com and use the Adobe Acrobat Search command to locate the phrase quickly. ETDFL is released in Germany in over 15 Languages and is a free download from ETDFL.com

How to use Program effectively:

In this example below, a user wanted to change the first 2 frequencies to 110.00Khz and 270.00Khz. Use the step by step below to practice adding frequencies to your TRIO machine.

Program Instructions:

Use the ▼ ▲ Arrows to Move from Frequency 0 to Frequency 9

Press the Middle (Program) Button to commence adding your frequency in Slot 0 (Zero)

Once you have Pressed "PROGRAM" you can move the arrow ◀▶ Left and Right to make changes.

For example you want to put Program 110.00Khz into Program Slot Zero:

Make sure you see the P in the box which tells you are in PROGRAM mode

Press the ► Right arrow so you are on the second digit. There will be a Line under the digit indicating where you are on the menu

So you now you press the UP ▲ arrow and have changed the zero into a 1.

OK so the frequency 110.00Khz is now ready to be saved. So now Press the middle button (PROGRAM) to save the frequency in P0 (Slot - ZERO)

OK Great! The frequency is recorded. And the TRIO Machine returns to (i) Idle mode. You must now press the UP ▲ arrow to move up to Slot 1. (IMPORTANT: Forgetting this step will result in you programming your next frequency in slot Zero again)

Ok, Now you have pressed the UP ▲ arrow and have moved into SLOT 1, then you can change the next frequency number.

Lets say your next number will be 270.00Khz

Press (PROGRAM) to edit the new Slot 1

Press the ► Right arrow so you are on the second digit. There will be a Line under the digit indicating where you are on the menu

Now you will need to Press the UP ▲ arrow 7 times to change the Zero to 7

Once you have successfully moved the digit to 7 then press the middle PROGRAM key again to lock it in.

As you see above you are in (i) Idle mode now so you need to press the UP ▲ arrow now to move to Slot 2

Continue this process until you have programmed all the 0-9 Slots (10 Positions) on the TRIO machine with the appropriate frequency set from the ETDFL Frequency book (Listings at back of this book)

Frequently Asked Questions:

Q, Where are the frequencies located for programming my own frequencies into the machine?

Answer The ETDFL (Frequencies) are found in the last section of this book. The Frequencies are in English, as Medical English Terms and Medical descriptions are used across many languages.

Q. Can I connect this device to an external 12v Car or Solar Battery in a Caravan

Answer. Yes you can connect directly to 12v with the TRIO series. TRIO can run on a 12v Battery however make sure the positive (red) is outside and (black) earth middle pin. Also Contact Healthproducts2@gmail.com for External Battery options. The US Store has a Solar Battery Portable Device which will run the PRO V2 series off the Power Grid

Q. Can 2 people use the machine?

Answer: Yes, 2 people can use the machine. There is 1 RCA port on the top of the TRIO Series which permit cables for 1 person, but adding the RCA Splitter will allow 2 leads (Total 4 straps, or 2 Straps + 1 Mat).

Q. What is the warranty on my TRIO machine?

Answer: 12 months International warranty covers all international countries, Return Postage fees may apply to countries outside of UK, USA, Australia

Q. Can I buy bulk for discount or become a reseller?

Answer: yes discounts are available for bulk. Contact distributor in your area. Contacts for UK, EU, USA and Japan are on the back page.

Q. I don't like the straps, do you have an alternative?

Answer 1: Yes. The "Rife Healing Belt" can be worn on arms, legs or even for Neck and Head treatment

Answer 2: Yes. The " Rife Healing Mat" is a single sided conductive "Bed Mat" which you can lie on, without been connected to straps and wires. It is an excellent choice for back pain, and also for any other treatment programs. The mat can also be wrapped and worn against the body:

Contact these stores for mats, combos, or Super Mat Packs

(USA)

www.healthproducts2.com (Mat is displayed on Home Page)

(UK)

rifedigital.net/order ("Mat Pack" is on Cart Page)

In USA Mat is posted using USPS (US) Postal services, and is also available to all International Countries. Rife Healing Mat can only be connected to the "PRO & PRO V2" series.

In UK, and EU, the "Mat Pack" is posted with Royal Mail, including tracking

Q. From reading the Dr Rife Journal, I know that Dr Rife used Straps on his 1940's model Rife Machines, however I also know he used a Light or Lamp as an option for treatments. Will you be selling a Rife Lamp for the Rife TRIO Machine?

Answer: ETD Labs in Germany are in this moment working on a Rife Lamp to suit the Rife Digital machine. This has been an ongoing project for 2 years, as the transmission of frequencies into Light requires a large amount of research and also a trial on a selection of people. We anticipate a release of the Rife Lamp in 2019, however at this time we do not have a fixed date.

Q. I need a few extra Straps, and cables, as I work with clients, so require extra accessories

Answer:

- Velcro Straps
- Flexible Straps
- Extra Leads
- Rife Healing Mats
- Rife Healing Belts
- Super Mat Packs
- Solar Powered Portable Battery Pack
- are available from US Store, and can be ordered directly here: **www.healthproducts2.com** (Straps displayed on Home Page. Straps are available for International clients)

For UK and EU, World:

- Rife Healing Mats, Belts & Super Mat Packs
- are available from **rifedigital.net** (Or email rifedigitaluk@gmail.com)

Japan

- Rife Healing Mats, Belts & Super Mat Packs

Recommendations for Treatments

General recommendations:

If you are new to this form of therapy or if you have not used the Rife TRIO for a long time or ever before, we recommend starting the treatment slowly. In the <SWEEP> mode, run a maximum of one cycle a day, possibly divided in two sessions (first 5 frequencies, then a few hours later, the other 5).

After a few days with this rather conservative treatment, you can increase the treatment time to 2 <SWEEP> cycles per day. If you regularly work with the device, then you can start treating overnight for 7 - 9 hours with attached foot-straps. This way you accomplish 3 to 4 cycles during sleep and will experience very immediate healing successes. Generally speaking, sleep is not disturbed; many users even describe quite the contrary, they feel more clearer and more alert after nights on electrotherapy treatments.

The ETD Frequency book lists thousands of diseases and ailments, with accompanying 10 frequencies . Sometimes, the choice is simple, for example if you have a cold then simply program your device with the frequency set for 'common cold' and set your machine on <SWEEP>. More complicated disease conditions may require an individualized program.

General disease treatments:

General treatments would be considered Parasite Cleanses, Cold or Flu treatments, Candida or Skin diseases, bacteria, viral infections and Detoxify, to name a few. These conditions can be treated over a period of 21 – 30 days

For General Parasite Treatment we recommend the:
Parasites general comprehensive: Dr Clark (Check ETDFL book)

Program the ETD with each frequency and use for 10 minutes per frequency. Many people use the ETD on the feet at night and for the first 21 days of the cleanse 7-9 hours per day or night, while resting or sleeping. Place wristbands on both feet with the Silver side touching the soles. Program all the above frequencies and allow the frequencies to cycle overnight in a loop every 100 minutes.

If you are not aware of the condition being treated, simply use one of the default frequency Presets within the machine, and use the <SWEEP> Key to run the frequencies according to the instructions above.

Serious Disease Treatments:

More serious diseases often require a longer treatment period, and often permit a course of frequencies that may change every few weeks. Our devices have been used successfully to treat serious diseases for thousands of people. Time and again, the results have shown that the extended treatment sessions have produced the best healing responses.

Extended sessions are more convenient at night, so as not to interrupt daytime activities or work schedules. An overnight session with the straps attached to the feet will permit a deeper healing which will reach and penetrate the organs of the body.

For example the intestines are an organ that could previously not be reached by early frequency devices; now with the ETD, one can eliminate parasites and pathogens that inhabit the intestine and other organs such as the liver, kidneys, gall and stomach. However it does take time, and you are required to use frequencies that resonate closely with the pathogen or parasite involved.

We recommend the <SWEEP> mode for this purpose as it scrolls through the 10 frequencies every 10 minutes in a loop cycle. Each frequency resonates with the healing program in order to treat the particular disease condition.

Because the ETD works using natural frequencies, three months may be a plausible time period for a remission of more serious disease conditions. Natural medicine works in this manner, on a more subtle level and over an extended period of time. Again, best results are achieved with the extended overnight treatment sessions.

How to choose the frequencies

If you have symptoms that can not be identified so easily, then there are several methods to choose your treatment program:

- To select the correct frequency or frequency set, you can work with kinesiology (muscle testing, based on the principle that the body already knows what it needs; you can work with a kinesiology practitioner or learn this technology for your own home-use). Some clients work with the pendulum, which is also easy to learn.
- There are electrotherapeutic devices that are able to write very precise diagnostic profiles. Those are often used by homeopaths (Vega machine) or in natural healing practices (Bioresonance-Devices), such as Quantum SCIO. These are based on the same principle, only that they start from a completely healthy body and then measure and diagnose the dissonances that are present in the unhealthy body. So you could look up such a clinic, get a diagnostic profile and then treat yourself with your own device.
- Most disease frequencies are listed in the book, however Medical definitions can change over time or be compiled into a new definition. If you can't find a frequency, you may have looked in the wrong section of the book: For example: Skin Cancer would be listed as "**Cancer, Skin**". Or Tapeworms would be listed as "**Parasites, Tapeworms**" for example. If in doubt email your machine supplier for the correct frequency set, or download the PDF version of this book, and use the Adobe PDF "Search" command to find the Disease name.
- If you use your ETD regularly you will observe another important side effect: you will get to know your body much better, and will become more sensitive to the physical processes of this therapy. You will be able to assess your illnesses and therefore choose your own treatments more accurately. You will be able to identify the frequencies that are bringing you into greater health and bring in new sets of frequencies when required.

Cautionary note on Treatments

You cannot “do anything wrong” with these treatments. If (for example) you can use the device to eliminate a particular parasite, and if you do not have this parasite, then the electrical frequency may simply fade without effect on the body. There has been research that shows that pathogens live in specific frequency ranges. If you cross frequency ranges with other pathogens or parasites of a similar resonance it is likely that you can eliminate that species. We recommend changing frequency sets if you do not feel change of disease symptoms after prolonged treatment (5 days). The ETD Frequency book will provide other frequency options to assist with further treatments.

What is Herxheimer reaction?

When you begin the electrotherapy- treatments, many parasites and pathogens are killed. This can overwhelm your immune system and lead to nausea, fatigue and dizziness. This is called the 'Herxheimer effect', or 'Parasite-Die-Off-Syndrome', an immune system response to toxins in the blood and tissues. This brief overloading of the liver and other eliminating organs worsen your symptoms at first. This can be a for a few hours, but can also last up to 2-3 days before you begin to feel much better. It is important to know that the worsening of symptoms does not mean the treatment has failed; in fact, it is exactly the opposite, namely the evidence for a very strong and effective detoxification.

What to do when a Herxheimer reaction occurs?

The most important thing is to accept this physical reaction, as a confirming result of the treatment. If it is very severe, then reduce the time of treatment, drink lots of water (at least 4 L per day) and rest (no exercise!), eat lightly to not burden your digestive system additionally, add freshly squeezed lemon juice to your drinking water and make sure that your digestion system is working properly (using Epsom salt or natural laxatives may be recommended). Take a rest from the Electro Therapy sessions for a few days until you recover.

ETD warnings

- It has been suggested that Pregnant Women should not use electro-frequency-devices.
- Pacemakers: You can use with Pacemaker, however keep machine straps, and wires more than 12" (inches) away from the chest location.
- It has been suggested that frequency output generated in the bandwidth of Lactobacillus Acidophilus: (346.05, 347.00, 348.00, 349.00, 350.00, 351.65, 352.00, 353.00, 354.00, 355.00) can trigger Candidiasis (Candida) in some people. If your treatment program ranges within the bandwidth of this natural stomach and intestinal flora, then take daily "Pro Biotic" supplements , available from health food stores. Lactobacillus acidophilus is also found in natural yoghurt, Kefir and Kombucha.

Important note:

In rare cases there might be a tingling sensation on the skin due to the use of our ETD. This usually happens only when using the wrist-straps on sensitive skin such as abdomen, wrists, or other soft skin areas. To avoid this, please use the wrist-straps only in the palms of your hands or on the soles of your feet.

Using the straps in sensitive skin area despite the above described tingling sensation for a long time, can cause a local rash. If you really need to treat at these locations, please move the straps regularly every few minutes, in case of tingly sensation. The best places to conduct treatments over a longer time period are the palms of your hands and/or soles of your feet.

You can wear the Rife Mat or Rife Belt over a thin T-shirt when using the TRIO series. The T-shirt will help reduce any sensitivity issues.

The best place to carry out several hours of treatment (such as overnight) is on the soles of the feet in a way that the stainless steel button touches the bottom of your feet. The soles of the feet have very thick skin and are able to tolerate long periods of electrotherapy.

Suggestions for reliable machine operation

We would advise that the machine be placed on a firm surface, like a glass top table, wooden bedside cabinet, or on the floor if you have marble or similar surfaces.

Do not place the machine on top of beds, or inside the bed, on a carpeted floor, or on a pillow or clothing.

Do not be alarmed if the green light begins to flash on the programs 00.01 – 00.04 kHz

When using the “Super Low Range” frequencies of 00.01 – 00.04 the Green light may flash indicating that the machine is running a low frequency set. The very low frequency sets 00.01 – 00.04 are the most effective detoxify range, and for this reason, a flashing light indicator was fitted, so that doctors and health professionals could monitor their clients.

The low range detoxify sets can cause a small herxheimer reaction in some clients. This detoxify range permits speedy elimination of pathogens and bacteria in the body which can cause a small reaction in some people, such as a brief cold symptom, which would rarely last more than a few hours.

This machine has been Quality Control Passed for years of continual successful operation.

Technical Data.

- Square Wave Output
- Voltage 16.5v (Oscilloscope)
- Voltage 8.25v (Multimeter)
- Cycle 100% Positive Offset
- DAC: Digital accuracy
- RF Frequencies using CW Impedance
- * Auto Switches to SINE Wave only when using Dr Rife Beam Ray LAMP Device

Laboratory tested harmonic waveform periodic on 100% frequencies

Fig. 2

DAC

Digital frequencies from Direct Digital Synthesis and Digital Signal Processing are converted to analog before they are transmitted from the ETD. These Digital-to-Analog Converters are also known as DAC. The ETD signal goes through the DAC then it passes through a Low-Pass or Bandpass Filter to finish the analog conversion. The Frequency produced is a very accurate analog frequency with all the overtones and undertones of that analog frequency.

The analog frequency produced by a digital chip can be swept up or down with more accuracy than most frequency generators. The most important thing to remember is the frequency will be converted to analog before it is output from the ETD. Digitally produced frequencies when converted to analog are the most accurate. These analog frequencies when converted to a square wave produce the square wave harmonics as seen in (Fig. 2) Radio Frequencies are produced using Carrier Wave Impedance.

WAVE TYPE

Wave type is Square Wave, the most reliable wave form tested for eliminating pathogens and disease treatments. Duty Cycle is fixed at 50% on the standard model, and 10% - 90% square wave duty cycle on the TRIO model under Pulse mode option. (Fig. 1) The Wave form will Switch to a Sine Wave when using Beam Ray with Rife TRIO, in accordance with Dr Rife Beam Ray machine specifications.

VOLTAGE and AMPERAGE

Voltage Output measured by an Oscilloscope will accurately measure the top of the Square wave (8.25v) added to the bottom of the square wave (8.25v) to produce the correct output reading of 16v
Output measured by a Multimeter will accurately measure the top of the Square wave (8.25v) only. The reading is instantaneous and will not account for the total true measurement ($8.25 + 8.25 = 16v$).
So please note, if you are measuring the output on your ETD with a multimeter, do realize that the measurement shown will only reflect 50% of the total output of your ETD device. This anomaly has to do with the inability of most multimeters to accurately measure voltages from a wave form. If in doubt always test ETD output with a professional Oscilloscope. Amperage output from DC source is 4500ma.

HARMONIC FREQUENCIES

Frequencies produce harmonics which progress from high to low and again to high within the wave output sequences (Fig. 2). The harmonics of a frequency consist of overtones and undertones of that frequency. In a device like the ETD frequency generator, the harmonics go on infinitely. Because with harmonics, not only will you get the healing effects of the frequency itself, you will also make it difficult for the pathogen to elude the given frequency.

Introduction to the ETDFL

The revised edition of the ETDFL(The Electro Therapy Device Frequency List Edition 2018) provides the users of ETD a clear and comprehensive manual to use the Electronic Therapy device against various diseases and ailments.

This book has been adapted from the original CAFL-Frequency-List for use with your device and all programmable frequencies are mentioned in kilohertz (kHz).

The Electro Treatment Device List, (© ETDFL Association)

This book has been compiled by medical researchers, who use the Dr Rife machine in combination with the Quantum SCIO Bioresonance device to discover the particular frequencies which reflect successful medical treatments of patients at various RIFE frequency settings. The medical practitioners have made notes of the range of frequencies for a particular disease when the treatment was successful. These were then transcribed in this booklet.

Frequencies in this book reflect successful treatments using digital Electro-Therapy-Devices. They may not always be a cure for a disease, but the frequencies will assist in the relief of many diseases and illnesses. Many parasite specific illnesses can be treated and cured through the specific frequency programs outlined in the ETD Frequency lists.

All frequencies in this book are in Kilohertz (KHz). 1 KHz corresponds to 1000 Hz (i.e. 30000 Hz = 30.00 KHz). The range of the Digital Device is from 000.01 KHz up to 999.99 KHz (approx. 1 MHz (Megahertz)). This frequency compilation has been brought into a form that allows you to program the frequency sets directly into your Digital Frequency Device.

Enter the frequency sets from this booklet on the navigation console directly into your machine to achieve an improvement in your symptoms, the cure of various diseases or physical ailments.

ETDFL

E.T.D.F.L is an ongoing project by 12 Clinics across the planet who use the Quantum SCIO Bioresonance machine to record Disease frequencies of actual clients, and then produce the 10 most accurate frequencies which are deemed suitable for treatment with the Royal Rife Machine. This project began in 2006 when the original CAFL frequency list was discontinued. ETDFL became the new list, now used by more than 100,000 Royal Rife Machine users across the planet. The accuracy of the frequencies is seen in the positive results of the clients who use this Frequency List in clinics and homes in every country.

ETDFL is updated once a year. Latest PDF versions available at: ETDFL.com

PDF versions of ETDFL at **ETDFL.com** allow you to search the ETDFL Database for Disease frequencies which may be more up to date than the List provided within this book.

This Rife TRIO machine is licensed to use all ETDFL Royal Rife Frequency Sets © 2018 ETDFL Berlin Germany

Disclaimer

The E.T.D.F.L. (ETDFL.com) Association holds no guarantees, that the Royal Rife frequencies within this book will cure any specific diseases. The listing is a guide compiled by Electro-Therapy medical staff, who have had successful results at each of the listed particular frequencies.
